

## MARLY'S MY FIRST KNIT SUMMER VEST

<b>KAL Details and Notes</b>
Yarn:
Needles:
Size Making:
*note: you must have the downloadable pattern from <b>YARNSPIRATIONS</b> to use this line-by-line spreadsheet

<b>PREPARE THE YARN FOR BACK AND FRONTS</b>
Take all the remaining sets of yarn (1 ball of A and 1 ball of B) and line them up. Now, guesstimate at what point on EACH ball of yarn is about the same spot in the color repeat. Once you have established the same spot on each set, you now have a point at which to start each front with its own set, and the back with the remaining set of yarn from the body or a new set of yarn (depending on size).
NOTICE: If you are running low on yarn from the set for the back, it is more important that the fronts of the vest match in color as closely as possible than the back. Should the back of the vest need to change colors in the last 3 or 4 inches that will not be as noticeable as it would be on the fronts (see video tutorial for week 3 of KAL for more on this).
When it is time to change to a new set of yarn, you can choose to start at the same point in the set as you did at the cast on, or you can go in reverse. On the sample vest we matched up as closely as possible on all parts of the vest (sample is a small) and you can see how the colors worked up.

**PATTERN NOTE:** Work even until armhole measures 8 (8½-9-9½-10-10½-11)" [20.5 (21.5-23-24-25.5-26.5-28) cm] from cast off edge (at the end of week 2), ending on a WS row.

Below are the number of rows that should equal the correct measurement for the armhole based on the row gauge given in the pattern. If you need to adjust the number of rows be sure to make note so you can adjust for the fronts as well. **AND MAKE SURE YOU END ON A WS ROW!** The first row of the shoulder shaping should be made on the RS row.

<b>SHOULDER SHAPING NOTES</b>	
<p>For the shoulders you will work short rows to get a nice slope to the shoulder. The pattern is written for wrap and turn short rows. If you choose to use German short rows instead that is okay, but remember you <b>MUST WORK</b> the stitch that would normally be wrapped. If you need help please watch the video.</p> <p><b>IMPORTANT NOTE:</b> Again, it is important that your armhole measures the distance listed in the pattern for the size you are making. The checklist above is based on the row gauge of 6.25 rows per inch, so if you are not getting that same gauge you will need to adjust the number of rows you do on your vest.</p> <p><b><i>If your armhole is too long or too short it is okay to adjust the rows to get the correct measurement. Just make sure you make note of it so you can do the same number of rows for the fronts before you get to the shoulder shaping.</i></b></p> <p><b>ANOTHER NOTE:</b> The row numbers listed below do NOT coincide with the stitch row numbers, they are just the number of rows you need to do for the shoulder shaping. However, it is my suggestion you just work all these rows in stockinette stitch and not do any 5 wraps should you have them.</p>
