

MARLY'S MY FIRST KNIT SUMMER VEST

KAL Details and Notes
Yarn:
Needles:
Size Making:
*note: you must have the downloadable pattern from YARNSPIRATIONS to use this line-by-line spreadsheet

PREPARE THE YARN FOR BACK AND FRONTS

Take all the remaining sets of yarn (1 ball of A and 1 ball of B) and line them up. Now, guesstimate at what point on EACH ball of yarn is about the same spot in the color repeat. Once you have established the same spot on each set, you now have a point at which to start each front with its own set, and the back with the remaining set of yarn from the body or a new set of yarn (depending on size).

NOTICE: If you are running low on yarn from the set for the back, it is more important that the fronts of the vest match in color as closely as possible than the back. Should the back of the vest need to change colors in the last 3 or 4 inches that will not be as noticeable as it would be on the fronts (see video tutorial for week 3 of KAL for more on this).

When it is time to change to a new set of yarn, you can choose to start at the same point in the set as you did at the cast on, or you can go in reverse. On the sample vest we matched up as closely as possible on all parts of the vest (sample is a small) and you can see how the colors worked up.

Row 2 (WS):	(P2, K2) 5 times, slip marker, purl to end.						<input type="checkbox"/>

PATTERN NOTE: After armhole shaping, you will do neck shaping. Once that is complete, work even until armhole measures 8 (8½-9-9½-10-10½-11)" [20.5 (21.5-23-24-25.5-26.5-28) cm] from cast off edge (at the end of week 2), **ending on a WS row on Right Front, and RS row on Left Front** before shoulder shaping.

Below are the number of rows that should equal the correct measurement for the armhole based on the row gauge given in the pattern.

There is a checkmark for each row needed to complete that size! If you need to adjust the number of rows be sure to make note so you can adjust for the fronts as well.
